From The Committee

There are times when it is hard to provide dialogue from our meetings because we do go through these times when little happens. The covid affected year has been the worst of these times.

Our small group meet every two months and meetings are a couple of hours long and discuss what is happening in the community and then looking at ways we can contribute. While we are a willing band we do need to boost the ranks and ensure there is a group that is active in making the most of chances to ensure Matua stays a great place to live. With the change of dynamic in our community there is a need for younger voices to be heard. While we understand that young families have great pressures and committing time to community is not at the top of the priority list there must be people who can commit at least an hour every two months to express their opinions on what could or should be done to keep this the best of suburbs. We are not strongly political and while in regular contact with Council our focus is on Matua.

WWW.Matua.org.nz

is hosted by the Matua Residents Assn and is a vehicle of communication within our community.

There is information about the roles of the Association plus

Community Patrols and Neighbourhood Support
Civil Defence
Matua Estuary Care Group
History of Matua

(photos and information is keenly sought)

Links to connect to pages / websites for Matua Bowls, Matua Baptist Church, Matua Kindergarten and Matua Primary are also included. A local business directory will be included.

If your community group wants to be part of this initiative contact Richard on 0274 337 675 or any committee member.

Communication is one area where we can raise the standard so welcome with a strong facebook focus. If you want to have a voice we welcome your contribution. Contact any of the committee listed below.

Chairman Richard Kluit	027 433 7675
Treasurer Mike Dyer	021 0841 9463
Lyn Donovan	027 270 9800
Annette Timms	027 538 1739
Paul Chapman	027 280 4853
Neil Chinnery Brown	021 158 5204
Derek Beaven	027 848 0001

I hope you enjoy the article from Richard O'Brien on Strokes. Richard spent part of his youth growing up in Tauranga and had a close affiliation to the Tilby family riding horses across their farm paddocks with the Tilby children.

The Value Is In The Land

There is a common expression "They are not making any more land" and there is little land left in Matua that could be subdivided to create more housing.

With much of the development occurring during the 1980's and 1990's the average section size was in the 600-700m² bracket, ideal for family life and room for the vehicles but not too much to tie owners down at weekends. Newer suburbs have section sizes that are much smaller. Gardens are well maintained and we have an abundance of local reserves and of course the fabulous Fergusson Park.

The harbour foreshore and estuary wetlands offer the amount of space that only a peninsula can provide. We have a top school and close proximity to higher schooling. The security of one way in and out is a huge safety plus bolstered by a camera at the entrance to the suburb. Traffic snarls only occur at school times on rainy days and then only for a matter of minutes.

Yet you know all this and that is why you live in our suburb. So why this message – well the median value of the average dwelling has now reached \$1million dollars, just the second suburb to do so after the Mount Peninsula. This reflects the desirability of Matua.

Dr Ashley Bloomfield to present at Waipuna Hospice Palliative Care Symposium

Waipuna Hospice is pleased to announce that Dr Ashley Bloomfield, Director-General of Health, will be presenting at their upcoming ‘Palliative Care in our Compassionate Community’ Symposium on the 17th of May, 2021.

The symposium aims to create a more compassionate community to support people at the end of their lives by bringing together industry leaders, sharing their knowledge and experience on palliative care in today’s landscape.

Dr Ashely Bloomfield, a 1990 medical graduate with years of clinical work specialised in public health medicine, has been a familiar face in New Zealand media since the start of the COVID-19 pandemic; delivering daily updates and announcements, and helping lead New Zealand through unprecedented times. On the 17th of May, Dr Bloomfield will be virtually presenting at the Waipuna Hospice Symposium, discussing how New Zealand crushed the curve with kindness in 2020, and exploring the lessons he hopes we take into 2021 and beyond.

As Waipuna Hospice CEO, Richard Thurlow explains, Waipuna Hospice is thrilled to welcome Dr Ashley Bloomfield to what is already shaping up to be an engaging and thought provoking Symposium.

“I had the pleasure of hearing Dr Ashley Bloomfield present last year and he is definitely an inspiring speaker who has demonstrated sublime leadership for the whole of the country over the last year. I am really excited to hear Ashley present on “how kindness killed the curve” – especially as kindness is one of the central pillars of compassionate communities.”

Dr Ashley Bloomfield is the sixth keynote speaker to be announced by Waipuna Hospice. He is joined by Bay of Plenty DHB CEO, Pete Chandler; Clinical Advisor to Hospice New Zealand, Professor Rod Macleod; Research

Fellow and founding member of the Te Ārai Palliative Care and End of Life Research Group, School of Nursing at University of Auckland, Dr. Tess Moeke Maxwell; Starship Children’s Hospital Paediatric Palliative Care Specialist, Dr. Emily Chang; and General Paediatrician and the Medical Lead for Paediatrics in the Bay of Plenty, Dr. Justin Wilde.

When planning their Symposium, Waipuna Hospice made it a priority to create a programme which left attendees with a better understanding of how palliative care fits into the community, and the role they play. To achieve this, discussions on the day are set to range from caring for Māori kaumātua at end of life, and learning from the past to shape the future, to paediatric palliative care and how end of life care fits into a compassionate community.

Health professionals, carers, and interested people from the community are invited to purchase tickets, however, tickets are already selling fast and the event is expected to sell out.

The Palliative Care in our Compassionate Community Symposium will be held on 17th May, at Waipuna Hospice, 43 Te Puna Station Road, from 8am – 3pm. Tickets are available at <https://www.waipunahospice.org.nz/symposium-2021/>.

WOF NOW OPEN at 89 Ngatai Road Monday - Friday 8am to 5pm

The change in colour is most likely the giveaway that something is happening!

We are in an exciting transition to VTNZ taking over our busy WOF lanes. VTNZ carries out over 600,000 WOF assessments per year so you can rest assured your vehicle is being checked by experts.

Q&A

Can I wait?

Of course, you can wait in our comfortable waiting lounge.

Does the book in process change?

No, phone 5766 723 for your VTNZ W.O.F booking

IS VTNZ independent of Superior Automotive?

Yes, VTNZ has designated lanes and inspectors in our workshop. They manage all inspections completely independently of us. If you need maintenance work or any repairs completed to pass your WOF, we're happy to provide you with an estimate to carry out any work required.

- All vehicle servicing | Clutch repairs
- All automotive repairs | Brake repairs
- & Servicing | Cambelts & Timing Chains
- CV Joints | Batteries | Exhausts & Mufflers
- Radiator repairs & flushing
- Shocks Suspension & Steering
- Engine management diagnostics
- Automotive Servicing petrol and diesel

Superior Automotive Services | 89 Ngatai Road, Tauranga | Phone: (07) 576 6753

Certified Repairer

We are open

8am to 5pm Monday - Friday

Serving Our Community for 50 Years

Otumoetai Lions Club this year celebrates a belated 50 years after covid prevented the opportunity to do this last year. Members past and present will gather for the chance to reminisce over the contributions they have made to the Otumoetai and Tauranga community and celebrate the fellowship and fun that they have enjoyed during that time.

With a current membership of 25 men and women the Club meets twice a month, once as a business meeting and once as a social gathering over dinner

and the chance to listen to a guest speaker or join in fun activities. The Club also acts as parent club to Otumoetai Leos, a group of enthusiastic students from Otumoetai College.

If you would like to serve your community and enjoy yourself at the same time come along to Matua Bowling Club at 7.00pm on the first Tuesday of each month or contact Secretary Kevin on 021 500 746 or Margaret 021 614 665

Heads Up for Kids Notes and Coins for better youth.

Many households will have old coins and notes and foreign currency from those days when we did travel the world. Don't throw them out because they hold no value to you. Lions Clubs across the country gather it in and "sell" it to the Reserve Bank.

Heads Up for Kids project provides a helping hand for young people to engage in an experience or activity that will enable them to live their dream, establish life goals and reach their full potential

If you can assist we will call and pick up or you can deliver in an envelope to Richard Kluit at Eves Cherrywood 0274 337 675 or Mike 0274 978 818

Matua Garden Club

We are an active, sociable club still following many of the early garden club traditions mixed with a modern-day approach to gardening.

Garden club members get together for club days at the Matua Hall (110 Levers Road) on the 3rd Wednesday of each month commencing at 1:30pm. Guest speakers are arranged regularly covering various garden related topics. Members are encouraged to bringing along blooms, fruit and veges from their gardens for a friendly competition. There is also a Floral Art competition for the more adventurous! Trophies are awarded in each category at the end of year at the AGM and Prize Giving. Members are also encouraged to bring along any problem plants for discussion and advice. Meetings are concluded over afternoon tea and an informal chat.

We also arrange tours to local gardens, garden centres, parks, and other places of interest.

You do not need to have a large garden, or even your own to enjoy the club's monthly meetings.

Annual Subscription \$20.00 | Visitors and New Members are most welcome.

Young people continue to be over represented in road deaths and serious injuries.

RYDA is the leading and only national road safety education programme for youth in New Zealand, providing young people with the skills and strategies they need to stay safe on the roads.

The RYDA workshop features highly engaging practical demonstrations, real-life narratives, videos, quizzes and interactive role play. The RYDA approach supports youth development in a number of areas including social resilience and anticipating and managing risk.

Created for senior high schools, RYDA gives students a unique opportunity to set road safety goals and build strategies alongside the friends they will most likely be riding with, as drivers or passengers.

At the workshop, students attend six interactive sessions at a dedicated venue over the course of a school day. Back in the classroom, we give teachers everything they need to continue the learning throughout the school year.

WHY ARE YOUNG PEOPLE AT RISK?

WHY SHOULD EVERY YOUNG PERSON PARTICIPATE IN RYDA?

Carrying passengers under the age of 21 (who are not family members) increases the risk of a young driver crashing significantly. Research tells us that crash risk grows exponentially as young passengers are added. This is why restricted drivers are not permitted to carry passengers.

Whether they are the driver or a passenger, every young person contributes to the safety of the road users around them. RYDA helps young people understand the restrictions and prepares them for a time when those restrictions are no longer there to protect them.

Learning outside the classroom is an important part of student life at Ōtūmoetai College. After the disappointing cancellations of 2020, this year's calendar has been busy.

Here are just a few of the highlights.

In February, our Kaimai camp played host to 18 Year 9 Form Classes. This is a great bonding opportunity with a busy programme of activities run by highly trained staff and some student peer mentors. Students also plan, buy and cook their own meals.

During March and April, some lucky Year 10 students took part in a Physical Education extension programme on Great Barrier Island. Once again, students develop team work and outdoor skills. Participants learn more about themselves, building their levels of confidence and self-belief. This is life-changing for many.

On the sporting front, the recently formed Barbarians Rugby Academy has been putting boys and girls from Ōtūmoetai and Bethlehem Colleges between Year 9 and Year 13 through their paces. Community service is also a key part of this values-based programme.

And our rowers did themselves proud last season, taking delivery of a brand new boat and reaching new heights at the annual Maadi Cup which took place at Lake Karapiro in March.

Meanwhile, our senior art students had the opportunity to take in the delights of the Van Gogh Exhibition in Auckland, while this week the drama department had a rare opportunity to meet the cast of Jersey Boys. Former Ōtūmoetai College students Matt Lee and Calista Nemes are currently performing in lead roles in this stunning show at the Civic Theatre.

A Weta in the Woodshed

A couple of years ago Ruud Kleinpaste, better known as The Bug Man, came to my garden during the Bay of Plenty Garden & Art Festival. He convinced me to convert part of the garden into a habitat for our declining and extraordinary Wetas.

Wetas are very shy beings, appearing under the cover of darkness, and spending much of their time hiding from their many predators – rats, mice, hedgehogs, cats and us when we remove their trees and foliage, thus destroying their homes and food supply.

They are unique to New Zealand, have ears on their legs, they are older than some dinosaurs and have uncanny ways of moving their abdomens and legs to communicate: (1) “I’m scared”, (2) “Move along”, (3) I’m looking for love”. They guard their hidey holes with their posteriors. They have good reason to, as within they nurture a small harem of females. They are really rather weird!

I have a plea: I need more Wetas! Please, if you find one in your garden or in your wood shed (they love those), please ring me and I will come and collect it, or you could leave it in a secure box at my front door.

Thank you very much,
Heather Loughlin

Families Turn out for Moon Viewing

The weather was kind for Tauranga Astronomical Society when they held a family viewing night of the Moon. People of all ages turned out to view the craters of the moon from the six telescopes available, including one of the best in the country, the 14 inch Meade LX200-ACF telescope. A bonus was the passing international space station, albeit a fleeting view.

Normal meetings are held on the 2nd and fourth Tuesdays of the month alternating between Club and public nights. www.tas.org.nz

FLU VACCINE TIME: Protect yourself against the unpleasantness of catching the flu.....book an appointment for your vaccine with the nurse.

The Government is again offering the free flu vaccines to all patients over the age of 65years, and also to those under 65 who have chronic illnesses.

Winter coughs and colds

Most people refer to a cold as “the flu” but influenza or the real flu is a specific illness, different from a cold.

The flu has the following symptoms, which distinguishes it from a cold. These include sudden or rapid onset of symptoms:

- High temperature
- Chills and fever
- Headache
- Weakness and aching muscles
- Loss of appetite

Most flu symptoms usually clear in 7 to 10 days, and most people with flu are likely to take several days off work and school.

If you still have not had your vaccine, please call us on 576 2321 and we will book an appointment for you.

Otumoetai Doctors | Phone 576 2321

Usual opening hours:

Monday – Friday 8am – 5.30pm

Saturday 8.30am – 1pm

Predator Free Matua We're on Facebook with 166 members - join the group.

During March there were 5 new household take traps, with 155 across the city. There were 6 kills posted out of 315 for the city. If you haven't had any success and know there are rats about then try a change of bait. Macadamia nut is a very strong attractant and chocolate has been known to have success (one piece for the trap and five pieces for you). If you need a trap call Robin 027 293 6900

places in which to live by putting neighbours in contact with one another. This is primarily achieved through the establishment of "NS Street Groups". The **main purpose** of the groups is to encourage neighbours to **know one another** and share information on crime or suspicious activities in their area. Early contact with authorities such as the Police is also encouraged for reporting of unusual observations or unacceptable behaviour. Crime prevention information can also be shared with group members via Community Constables.

A secondary objective of NS is to facilitate communication between Civil Defence (Emergency Management) and the community during a man-made or natural disaster.

At the heart of NS is the Street Coordinator and their Street Group.

Does your street have one?

What is Neighbourhood Support? (NS)

Neighbourhood Support is an international non-profit organisation working closely with the Police and other organisations, to reduce crime and to prepare people to deal with emergencies and natural disasters in their community. Introduced to New Zealand as a crime prevention initiative in the late 1970s NS evolved to become a community-owned and managed organisation with a wide-ranging interest in crime prevention, community safety and good-neighbourliness.

NS aims to make communities safer and more caring

GARDENING CAN BE DANGEROUS

Safe handling of potting mix and compost is needed. Legionnaires disease, if caught, can be deadly. It is a type of pneumonia caused by bacteria that commonly live in potting mix, compost and soil. It can be breathed in via dust.

People over age 60 or those who are current or former smokers or those with pre existing conditions, are more at risk from death from this disease. Flu-like symptoms can appear two to ten days after exposure.

Symptoms present may be a cough, shortness of breath, fever, muscle pain, stomach aches, headache, diarrhea or nausea and vomiting. If you experience any of these symptoms it is recommended you contact your medical advisor and tell them of your recent gardening activities. Early treatment is usually effective but serious illness can require hospital care.

Care is needed when using potting mix. It is sensible to wear a well-fitting mask and wear gloves. Open bags carefully with scissors, and reduce dust by damping down the potting mix or compost.

Work in a well-ventilated area outside. And wash your hands before you remove your mask.

The disease can also be caught from infected water droplets from air conditioning systems.

Enjoy your gardening but keep safe!

Holiday Fun

What better way to start the school holidays than for this Bellevue mother and daughter (pictured

below) paddling around the Matua foreshore from Bay Street. Along the way large stingrays could be seen in the clear and calm waters, and they were followed by a 30cm yellow tailed fish swimming below their boards.

Oil spill exercise

On Tuesday 30 March, Bay of Plenty Regional Council held its biannual multi-agency oil spill response training exercise at Fergusson Park and in the wider Matua area.

This regular training helps ensure we are prepared to respond in an oil incident and that our Oil Spill Response Plan is coordinated and effective. We used booms, oil skimmers, boats and PPE to contain and clean up the oil.

This inter-agency exercise included staff from the Regional Council response team including the Regional Harbourmaster, Maritime NZ, Tauranga City Council, Department of Conservation, iwi, Waikato Regional Council & Gisborne District Council.

For more information on oil spills, please visit:
www.boprc.govt.nz/oil-spills

A large crowd turned out to support two local teams

Otumoetai V Papamoa, in the first round of the oldest sporting trophy in New Zealand – The Chatham Cup. First played in 1923 the Cup has never been won by a

BOP team so maybe this will be the year of Otumoetai FC who progressed after a 2-0 triumph over their cross town rivals.

What's it like to have a Stroke? Richard O'Brien describes what it was like for him.

Taken from www.Guardian.com 5th November 2020.

Richard O'Brien is known throughout the world as the creator of the Rocky Horror Show, as an actor and as a presenter of The Chrystal Maze (UK) and the DNA Detectives (TV NZ). The actor, and writer was born in the UK, emigrated with his family to Tauranga and then moved back to the UK as an adult. He now lives in The Bay of Plenty and became a New Zealand citizen in 2012. Now aged 78, Richard is fondly thought of by many New Zealanders and there is a statue of his most famous creation, Frank n' Furter, in central Hamilton. He was interviewed last year for the Guardian Newspaper UK. Here is an extract:

The creator of the cult show is not going quietly into his 70s but was not immune to experiencing a Stroke like many others.

It happened whilst he was pottering around at home in Bay of Plenty when he suddenly found himself lying on the floor. "I didn't register that something was desperately wrong," he says, speaking from the house he shares with his third wife, Sabrina, 10 miles outside of Katikati. "I just thought: 'I wonder why I can't get up.'" Struggling to his feet, he attempted to make a drink, only to discover he couldn't put the top back on the milk. "I was in a dream-like state. Finally, I gave up with the milk, went

to go back to the bedroom, slid down the wall and started speaking in tongues. That's when Sabrina called the ambulance."

It was a Stroke. "Just a little one," he says cheerfully. "I bounced back." But he has had to make a few unwelcome adjustments to his lifestyle. "I used to love sitting on the back porch all day with a bottle of very full-bodied red at my elbow and a couple of jazz cigarettes. I couldn't think of anything nicer, quite frankly." Those days are over. "It cheeses me off. What can you have as a substitute?" A mirthless chuckle. "You can't drink tea all day."

The symptoms of a Stroke include sudden drooping, weakness and/or numbness of face; sudden weakness of the arm (and/or leg); difficulty speaking, words jumbled, or lost voice.

If someone has a stroke, they should be taken to hospital as soon as possible. Remember the

FAST drill if you are with someone who displays the symptoms of a stroke.

- **F**ace – Drooping
- **A**rm – Weakness
- **S**peech – Difficulty
- **T**ake Action – dial 111
- **F.A.S.T.** symptoms are present in 85% of strokes.

How to solve sudoku puzzles. No math is required to solve a sudoku. You only need logic and patience. Simply make sure that each 3x3 square region has only one instance of the numbers 1-9. Similarly, each number can only appear once in a column or row in the larger grid. *The difficulty on this puzzle is easy.*
