AGE CONCERN MID NORTH

Targeted directly to the 50+ demographic

DELIVERED FREE TO THE AGE CONCERN MEMBERS AND SELECTED BUSINESSES

WHAT IS AGE CONCERN

Local Age Concerns throughout New Zealand are the first port of call for older people in their communities.

They promote dignity, wellbeing, equity and respect and provide expert information and support services in response to older people's needs. Are active and vocal on relevant issues and work to ensure older people stay connected with their family, friends and community.

Each Age Concern is independently managed and showcase interesting editorial specific to their area covering everything from local groups and activities, seminars, services, health information, recipes, gardening and general informative information for the elderly, providing an extremely successful platform for national and local advertising.

DISTRIBUTION AND COVERAGE

A circulation of 650 each quarter and is distributed to an area which includes Towai on our southern border, Kaeo on our northern border and coast to coast, east and west. This area includes the towns of Kawakawa, Kaikohe, Kerikeri, Paihia, Russell, Opua and south Hokianga. Issues come out in February, April, July and October.
